LETTER OF RECOMMENDATION

To whom it may concern,

I am pleased to recommend Aysel Mammadova. From March 2022 to October 2026 Aysel worked as an accountant in the finance department of Example Holding LLC, reporting directly to me.

Aysel recorded primary documents in 1C, reconciled bank statements and prepared VAT and income tax returns. On her initiative the reconciliation was automated in Excel, which cut the monthly report from five days to three. In 2025 we also put her in charge of training new staff.

Aysel is accurate, reliable and meets her deadlines. She earned the respect of the team, stays calm under pressure and comes up with solutions.

Aysel left of her own accord to work for a larger company. I recommend her without reservation for an accountant or senior accountant position. Please feel free to contact me if you have any questions.

Yours faithfully,

_____
